NAASCO announces new service

Shirley, NY – NAASCO is proud to announce a new service for aircraft and helicopter operators that need Starter Generators overhauled or repaired on a one or two day turnaround. This new service is NAASCO’s “*Critical Care*” program and is available on every Starter Generator on our capabilities list for only \$99 over the overhaul or repair price.

John Leslie, NAASCO President stated that, “Operators now have a cost effective solution to time critical repairs or overhauls when time is absolutely of the essence”.

Since 1984, NAASCO has worked closely with OEM’s and operators worldwide to provide cost-effective repair solutions for a wide variety of electrical aircraft components.
