**NAASCO offers service to cover all parts on most Starter Generators**

Shirley, NY – NAASCO announces a new program to provide operators with a flat rate on most starter generator repairs and overhauls. This program covers all parts of unit with the only exclusions being for parts damaged due to misuse by the operator.

Jim Leslie, NAASCO Vice President stated that, “NAASCO is pleased to be able to offer this new service to providing a fixed cost solution to turbine Starter Generator maintenance.”

Contact NAASCO for a quote tailored to your fleet and specific needs.

Since 1984, NAASCO has worked closely with OEM’s and helicopter operators worldwide to provide cost-effective repair solutions for a wide variety of electrical aircraft components.
